DK Publishing, DK : The Marvel Encyclopedia: Limited Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised The Marvel Encyclopedia: Limited Edition:

0 of 0 people found the following review helpful. Collectors Edition of Everything about Marvel Universe By Ahreeman X Are you a comic book junkie? Are you a superhero fan? Have you been watching superhero animations and movies all your life? Have you been reading comics and graphic novels since you were a kid? Are you a comic book collector? Do you collect everything superheroes including but not limited to comic books, graphic novels, action figures, cards, posters, books, price guides, etc.? Then this encyclopedia is essential to own for you! They may call you a geek but Superman #1 (DC) just sold for \$ 100,000.00 and basically same goes for Captain America (Marvel)! Buddy, you have an investment sitting in your garage cabinets! You have your comic books well organized and neat on top of white cardboards inside plastic covers, ordered by alphabet in rectangular presume cardboard boxes with file numbers and you even designed your cardboard boxes with pictures, logos and alphabetic writings! They may call you a nerd but you have a fortune sitting your garage which you have been collecting since you were a kid. You are well invested and you are a rich geek! So who gets the last laugh?! Marvel Encyclopedia is made for you!

Everything you need to know about Marvel Universe is in there! All the good herbs and spices are in there! All them goodies and super secrets are in there! All the superheroes and super villains dirty laundries are in there! All the dirty secrets are in there! All them oodles and oodles of juicy info plus colorful images are in there! Theres Gold in them thar hills! This book is awesome. It is a hardcover, collectible coffee table book for serious collectors and thirsty enthusiasts for information. It is loaded with pictures, colorful images, tons of information, background info, specifics and details about each character and each Superhero or Super Villain group. It has boxes with detailed historical information, personal information and power levels on each character and then description of their complete lives. It has the complete history of each character described to the bone! The format is awesome, the images are colorful, the binding is professional and the paper is classy, thick and shiny! It is a very superb and valuable collectors item to collect for every Superhero enthusiast and fanatic. This book will review your whole memories of superheroes since childhood and gives you new perspectives and new information on the Marvel Universe. This encyclopedia is essential for your collection and for your never ending thirst for knowledge of the Marvel Universe. I have a few suggestions for you serious collectors: I. Only collect Marvel and DC because unlike the rest, they go way up in value. II. Keep on collecting but be wise on what to collect because the right Comic Book collection is like Stock Market or money in the bank! III. Buy this book because it is essential for your collection, so you know your stuff and what to collect and read. IV. Buy this specific edition because it is the most comprehensive, complete and well made edition available. Now you know the deal, so purchase this book to become the Master of the Marvel Universe! Bon Appetite!

Pros: the book came earlier than expected very informative exactly like it looks in the picture got it cheaper than retail price
Cons: I don't know if the paper cover on the outside was damaged because of the box and shipment or if the seller left it like that, but that was the only downer. Overall, I liked it. I bought the book for a good friend of mine and he loves it. Also, since I'm a beginner learner in the Marvel world, this book is helping me a lot with the character info. It's very detailed, colorful, the pictures are very well illustrated and it's really interesting. We didn't want to put it down! I would definitely recommend this book to people like me, who want to learn more or people who love comics and just need a refresher.

Growing up I was a huge X-men nerd. My wife and I decided to decorate with a comic theme in a bar/game room we were building instead of sports or wine like everyone else we know were doing. After putting up numerous comic cover replica posters around the room, I stumbled upon this Marvel Encyclopedia. Read a few reviews and HAD to have it. This book is great and detailed about every character I could think of. Some get a 5 or 6 page spread like Spider Man and most of the Avengers. The only thing that could be negative with this book are things like, The Avengers 2 villain (Thanos) is very unknown and doesn't have much of a back story. He only has a small snippet of information on 1/4 of a page. This is fine now, but after A2 becomes a hit Thanos will surely rise greatly in popularity. Oh, also I brought this book to work with me and was asked "How much did you pay for a book like that? around \$80-100 I bet." Nope, says \$40 on the inside cover and got it for \$20 on with free Prime shipping.

Heroes including Spider-Man, the Hulk, and the X-Men are featured in works by Marvel's finest artists, while the authoritative text is supplied by top marvel comic book experts.
