From Perseus Distribution : The Nature Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised The Nature Coloring Book:

0 of 0 people found the following review helpful. Nice book. Great seller.By Sandra CreditGreat patterns for faux stained glass. First book not as described, but seller sent a replacement when notified.13 of 13 people found the following review helpful. More than 120 Designs of Animals and PlantsBy iiiireader[[VIDEOID:c78fa726b5645c81db5fa2541f35db4a]]Attached is my silent and quick flip through video of the entire book of designs. I hope it is of assistance to you.The first thing I have to say about this book is that it is really big. It has over 120 designs that are associated with plants and animals in nature. Sometimes larger is better and sometimes it is not. In this case, it is certainly a plus. I would say that the majority of the book are designs that I will be interested in for myself. The remaining may be more appropriate for my grandchildren or other younger teens and children that come by for a visit and would like to color. That makes it a great family book to have on hand for craft/coloring time.A lot of the designs are of flowers and of birds. I like both of those subjects, so the book works

well for me. A few of the designs have intricate portions and I may need to just my magnifying lamp for those parts. On the whole, the designs are quite open and should be easy to color. The paper is of average weight and is bright white. The designs are printed on only one side of the unperforated paper with the backside left blank. The designs are not edge-to-edge, which gives you the ability to cut the pages out of the book to color. All of my gel pens and markers bleed through but my pencils work fine and don't leave heavy indents on the following pages. If you know that you have a heavy hand with pencils or you want to use pens/markers, I suggest a piece of freezer paper or heavy cardstock between the pages to keep them pristine. If you want to cut the pages out, I think an exacto knife might be the best solution. 12 of 12 people found the following review helpful. Love this type of stress relief. By Customeri love this book. So much better than what you find in local stores. It has pages with very small detail print. As well as large print. When I'm really stressed out I like the larger print so I don't have to concentrate as hard. Love the variety it has to offer. I love relaxing with my kids and coloring together.

Feathers and flowers, fish and fauna, this coloring book gives you a wide range of images from nature to fill in with your own choice of colors. Use these designs as inspiration for stenciling, crafts, or even tattoos! Markers, crayons, pencils, or any medium you choose bring these beautiful nature designs to life. Coloring can be relaxing and meditative, so find your inner artist and create something wonderful!

About the Author Thunder Bay Press is an imprint of Printers Row Publishing Group, a wholly owned subsidiary of Readerlink Distribution Services, LLC, the largest full-service book distributor to non-trade booksellers in North America. Thunder Bay publishes across a wide and varied range of formats and categories, from fun, interactive activity titles and kits on subjects such as origami, cooking, crafts, games, and art to reference books suitable for gift-giving in categories like art, fitness, pets, travel, history, culture, sports, and nature. Thunder Bay Press celebrates the book in all its forms, and publishes something for everyone. They're headquartered in San Diego.
