I have been a self-taught "needlepointer" for 36 years and have never taken a formal class. So why would I read this book? I love Janet Perry's needlepoint books, my favorite being "Needlepoint Trade Secrets". I enjoyed reading this book and picked up a few pointers that I wasn't aware of. It is an easy and fun book to read. Whether you are new to needlepointing or a long-time stitcher I think you will enjoy this book and probably learn something new.2 of 2 people found the following review helpful.
