**Darrell Schweitzer : The Neil Gaiman Reader** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Neil Gaiman Reader:

I felt the entire reader was rushed together for the sake of cashing in on Gaiman's name. Literally Analysis you can get for free online, Gaiman community sites, and Wikipedia are much better than this book.

Neil Gaiman's talent is so vast that any exploration of his work can only be described as a beginning. Here is one such beginning, an examination of the creative genius being *The Sandman*, *American Gods*, *Coraline* and so much more. His prose fiction has achieved enormous acclaim and popularity. Now leading scholars provide insights into the Sandman universe, its mythological underpinnings, Gaiman's technique and his relationship to other masters of the fantastic imagination. Two extensive interviews with Gaiman are included, along with a thorough bibliography of his work to date.
