I have digital copies of the most recent issues but I have started to go back and collect the old issues to track price changes for specific issues. Really good, useful books.0 of 0 people found the following review helpful. Five StarsBy Fast Gun FifeComes in handy1 of 3 people found the following review helpful. ALMOST PERFECTBy WESLEY CAMPBELLI am writing to say that your magazine is

truly spectacular as a comic book collector for a decade and a half now its nice to have a book that truly reflects collectables not just what's hot that month. But I do have one slight peeve that I was hoping your book could have solved over the last 15 years I've gotten quite a few titles in my collection some of which are definitely not mainstream and meant for readers over 18. Brainstorm Comics are the best example to give for this NONE of these titles are listed, I am hoping that in the next issue or two you guys can add this category to your book I understand that you have young readers who you need to take into account when publishing, but I think if you give these titles their own category perhaps a warning before the section than everybody can win young readers would have no reason to read it and those of us who have come across these titles and have them sitting in our collections can have an accurate value given to them. Thanks and keep up the good work.
