Woodland Scenics : The Scenery Manual before purchasing it in order to gage whether or not it would be worth my time, and all praised The Scenery Manual:

0 of 0 people found the following review helpful. Five StarsBy John Mc SweeneyHave referred to this for all my scenery layouts0 of 0 people found the following review helpful. Diorama GuideBy Michael BlackwoodWhile specific to railroad dioramas it still works for other types. The railroad folks are the Masters - at least in America.0 of 0 people found the following review helpful. Must have in your library if your building scenery.By redehyesMust have in your library if your building scenery. So many great tips and the binding is great for getting stuck on a certain page, doesn't hurt your book.

The Scenery Manual is the complete Woodland Scenics guide to creating life-like terrain, landscaping and scenic details for your model railroad, military diorama or architectural model. For the beginner or for the advanced hobbyist this book describes the products, the tools, and the foolproof methods used in creating natural settings in scale. No detail has been overlooked. Contains all the proven advise and inside tips for achieving craftsman quality results the very first time. But most important The Scenery Manual offers the confidence necessary to begin any miniature modeling project and finish it with pride.

About the AuthorWoodland Scenis is the leader in the manufacture of all scenery products used in model railroading. They are the experts and The Scenery Manual is a how to book designed to teach everyone how to have great looking layouts and dioramas the Woodland Scenics Way.
