The Scrap Savers Solution BookBy judy gouldI was very happy with my book. It came new as seller said it would, and in a timely manner.I would definitely buy from seller again.The book has some nice and easy instructions for smaller items such as table mats, wall hangings and very easy to do.Everything is explained nicely. Great book.1 of 1 people found the following review helpful. IncredibleBy New QuilterI thought this was one of the better scrap saver books. Can recommend. I find its easy to buy more scrap saver books. However, most are just repeats of previous books just different scraps. This one did not disappoint me.

This book offers a baker's dozen of delightful projects designed to reduce the volume of a quilter's scrap stash. 48 pages. Softcover.
