The positives: The illustrations are well drawn. There is a nice variety within the style of the book. The pages are single sided so you don't have to worry about bleed through if you like to use markers. This book has been compared to other coloring books. However, I find the drawings different enough to be unique. There are different animals and scenes although the illustration style is

similar. The paper quality isn't terrible. It holds the color from colored pencils well and is just slightly off of bright white so lighter colors remain true to the pigment. The reason I can't love this book: I like to blend colored pencils using a colorless blending pencil. When ever I blend in this book, the ink smears. It makes me crazy. 1 of 1 people found the following review helpful. 5 stars and I love it! By Michelle the Colorist Love, love, love this book! All hand drawn, the images are exceptionally gorgeous! Although there are a lot of "Secret" books out there to color, this one carries it's own secrets and is far different than any I've seen. 0 of 0 people found the following review helpful. Look for the hidden creatures and "things" ... By Terry K. Beautifully drawn pictures to color!

The Secret of the Forest The forest has concealed its secret for many a long year: a splendidly decorated little box buried beneath leaves and mushrooms. But a wily forest-dweller has discovered the key to the box - and with it the precious jewels inside. Look for the pieces of jewellery hidden in some of the pictures, and bring the forest to life with vibrant colour. An enchanting colouring book that helps you forget everyday life and restores inner peace and balance. A book for discovery, for unwinding, and for dreaming. With over 30 richly detailed hand-drawn illustrations waiting for bright and beautiful colours. We recommend crayons or coloured pencils. As the backs of the full-page drawings have been kept free, each motif can be cut out, framed and displayed. Have fun! As a little extra, you'll get a bonus colouring sheet.
