Comprehensive List of Soaping ResourcesBy JulieComprehensive to say the least! Great resource for any soaper, especially for people who are just starting out. Love it!

Welcome to the second volume in the Natural Soap Series. This directory is created to assist soapmakers in locating new resources for every phase of the soapmaking process. Each vendor is listed and organized by product, country and

vendor name. The listings are presented in a quick and easy format that allows soapmakers to quickly locate what they are seeking. So whether you are looking for a new soap cutter, want to create a list of everyone who services a particular country or need to get contact information for a new vendor, this directory will provide you with an easy and convenient access format to save you time and frustration. Each product listed in The Soapmakers Resource Directory is sorted into one of seven categories: Additives/Natural Colorants, Butters/Oils/Waxes, Essential Oils, Molds/Cutters, Packaging, Soaping Accessories and Sodium Hydroxide. Each vendor listing has been grouped into one of the following countries: Australia, Canada, Germany, New Zealand, United Kingdom and the United States. Finally, the vendors are presented alphabetically in a quick access format to assist in locating a vendor by name. If you have any questions or suggestions, you can contact me at help.book@earthlink.net. You are also invited to visit and explore the largest natural soaping group on Facebook, Natural Soap Forum, at <https://www.facebook.com/groups/Naturalsoapforum/>. We have a tremendous amount of resources and experience between our members and within our files that we would love to share with you!
