I love an old fashion Christmas and this book gives this and more. From its stockings to its tree ornaments. The potpourri cottage is so different and so charming. Just wait till you get to the back of the book to the taste of Christmas, the food on these pages will make your mouth water. Great book all over, even as a table book for the eye only. Lots of beautiful pictures. I have the whole set of The Spirit of Christmas and was missing this one, now my set is complete. 1 of 1 people found the following review helpful. Better than the other Leisure Art books that I have... By carrottop I ordered several of these books around the holidays with hopes of finding patterns to sew. The books are mostly centered around cross stitch, a form of hand sewing that I do not work with. This was a bit disappointing as was the lack of any sewing projects that were creative, new, and up to date. I wish I had saved my money. 0 of 0 people found the following review helpful. Worth owning the set By NY reader These books are worth owning if you enjoy the Holidays and crafting and cooking. Full of colored pages which show the end results of your handiwork. Somewhat outdated, but if you are creative you can tweak the patterns to a more present style.

This is just one of an annual series of Christmas craft, gift, decorating ideas from Leisure Arts. Contains recipes from

Raspberry Wine to Flaming Bread Pudding. Patterns for needlepoint, applique, stenciling and more. Papier mache, fabric crafts, wood projects. Detailed instructions for you to copy or just use as inspiration for your own creations, you'll find something for everyone no matter the skill level! Full color photographs on every page.
