I'm not the best at scrapbooking but this book has great ideas and stickers, borders, frames, anything you could need (except glue) to put together a great wedding scrapbook that you can look back on years from now and treasure. 2 of 2 people found the following review helpful. Wedding Scrapbook By Tracey A. Cook This is a great product. Full of wonderful colored sheets with papers. It also has great sayings for every step of the planning process. It breaks down everything from engagement to the first year.

There is no better way to preserve the memories of this wondrous event than creating a scrapbook with all the photographs and mementos of all aspects of the wedding and the steps leading up to it. My Wedding Scrapbook Keepsake allows the user to create a keepsake that will be treasured for years to come. Seven dividers create chapters in the fairy tale wedding story, including About Us, Our Engagement, Parties, Getting Ready, The Wedding Day, The

Honeymoon, and Our Married Life. The book contains everything needed for preserving all those special moments couples will enjoy recalling for years to come, including 40 mounting sheets, 30 sheets of ornamental wallpaper, 20 beautiful photo frames, and 2 sheets of decorative stickers. A photo window in the front cover allows the bride to personalize this unique keepsake. The three-ring binder format allows the user to add mounting sheets for even more photographs.
