Melanie Kahane : There's a Decorator in Your Doll House before purchasing it in order to gage whether or not it would be worth my time, and all praised There's a Decorator in Your Doll House:

2 of 2 people found the following review helpful. Fabulous surprise !By AKA farm girl!This book was written by a well known "celebrity" interior designer in NYC, member and former president of the The Decorators Club and the American Society of Interior Designers. Melanie was incredibly talented and clever. This hand printed book is a masterpiece of ideas for how to create appropriate furnishings to use in a doll house. It is a treasure!2 of 2 people found the following review helpful. Good projects but bad illustrationsBy Charlotte DickinsonI'm sure this book was lovely when it first came out. I wish I were happier with it, but I need better illustrations to be completely pleased with a dollhouse decorating or furnishing book. The projects are good though, so if you aren't as in need of visuals as I then you might find it better suited. The other reviewer loves this book and I can see why. I just need something different.

A book for children teaching them how to make furniture and decorations/accessories for their doll house.
