MaloneI haven't tried making anything from the book but I read through it and the techniques were spelled out very well. The pictures in the book were great and I would say inspiring. I can't wait to give it a try. I made a tie-dye shirt many many years ago and I wore it out. I loved it but it didn't hold a candle to the lovely shirts in the book. I wish I had this book way back then. I am so glad I got it, it's not a big book but a good price for all the information and pictures it has. In my opinion, this is a great buy.5 of 5 people found the following review helpful. Great PurchaseBy

Valerie BumpusI purchase this for my daughter in law, who loves to tie dye. She has already made one of the shirts from the book (the watermelon), and she has her eyes on several others. This was an Easter gift, and she was so excited to receive it. I was very please with this purchase!!0 of 0 people found the following review helpful. Beautiful designs, easy step by step instructions - more of a pamphlet than a bookBy Bill and TammyTie-Dye 101: How to Make Over 20 Fabulous Patterns (Design Originals) Very easy to follow instructions for different designs ... I was hoping for more though. It is more like a pamphlet than a book
