I bought it for a 1st Communion gift, but really it is mostly a list of recipes so basic, you don't really need the book. Most everything else is also trying to convince little boys to do "girly" stuff like sewing. The little saint stories are cute, but I think this book will be put aside and never opened by my nephew. I ended up buying him something else to go with it.1 of 3 people found the following review helpful. BirthdayBy TommyI have a lot of grand kids , so I had my daughters make up a wish list on for them .. it made things a lot less crazy this year.for me.10 of 10 people found the following review helpful. Not Just for BoysBy MN CatholicMy son and I jumped at the chance to review this book. You see, we have her other books. We adore them. The illustrations are so charming and appealing, and my daughter much preferred Alice's gentle sewing tutorials over mine. Also, Alice and her family only live a few miles away from the rest of our family in Louisiana. How could we go wrong?A week later, the book arrived. Luckily, I'm a fast reader. I had the book for the first two hours, and since then my son hasn't let it out of his sight.We can tell you that Tin Cups Tinder: A Catholic Boy's Little Book of Fire, Food Fun by Alice Cantrell is everything we hoped for, and more.Written by Alice and her boys, the book is chock full of recipes, sewing advice, Bible quotes, Saint stories, and nature. In her introduction Alice states, "The purpose of this little book is to casually introduce a few domestic survival skills to our boys using useful recipes and other projects all lightly

seasoned with the rich flavors of our Faith."She accomplished her objective. Plus some.Written in an easy, flowing style, the book makes everyone, not just boys, want to start baking and sewing and camping. My son is making his own plant press and sewing his own haversack, using the simple and clear instructions. I can't wait to get my hands on it again so I can make the potholders ~ genius idea!Buy the book. You won't be disappointed!

The purpose of this little book is to casually introduce a few domestic survival skills to our boys using useful recipes and projects all lightly seasoned with the rich flavors of our Faith. It is not meant to be a home economics text, but a first taste of what fun adventures cooking and (very) basic stitching can be. It is my hope that this book will spark an interest in these things, and as they get older, our boys might be more inclined to further develop these skills.
