Mr. Walter Higgins, the well-known instructor in woodwork. The volume fulfils a long-felt want in that it supplies fascinating amusement for evenings at home. The making of toys, is an engrossing pastime, and the home-made toy is invariably more novel than the shop-bought article and of superior quality, besides which there is always a satisfaction in I made it myself. The purpose of the book is to give simple and easily understood instructions and plain diagrams and sketches for making toys from the odds and ends that are usually discarded as useless. Matches, Match Boxes, Cotton Reels, Cocoa Tins. Cigar Boxes, and even Egg Shells comprise the materials from which are evolved Shops, Working Models, Dolls Furniture, Boats. Steam Engines, Windmills, and scores of other toys dear to the hearts of boys and girls. Perhaps the chief charm of the occupation is that literally dozens of toys can be made at a cost of less than a penny. Every toy described in this book is practicable, and can be easily made by anyone possessing the smallest amount of handicraft skill. At the same time the instructions are such as will prove of the utmost value to instructors of handicraft classes. MORLEY ADAMS.
