Jackie Dodson : Twenty Easy Machine-Made Rugs (Creative Machine Arts Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Twenty Easy Machine-Made Rugs (Creative Machine Arts Series):

14 of 14 people found the following review helpful. interesting and inexpensive rug book....By retroreduxif you're like me-someone who is always on the lookout for different ways of crafting traditional items like rugs-then buy this book. While it is not as photo intensive as most modern craft books and the projects could be a bit more detailed in the instruction department-it's still a novel and well thought out craft book on rug making.The designs use easy to find materials and can be very inexpensive as most are made up in scrap fabric or yarn but look very designer like and the styles are surprisingly NOT dated and would look great in any modern home.The book sells for almost nothing so you have nothing to lose by giving this book a try:)5 stars!
