**Betty Barnden : Very Easy Crazy Patchwork** before purchasing it in order to gage whether or not it would be worth my time, and all praised Very Easy Crazy Patchwork:

0 of 0 people found the following review helpful. Good starter book on Patch WorkBy Paints With LightGreat patterns with clear photos. Good for the beginner looking for new ideas.3 of 3 people found the following review helpful. Creative needleworkBy M. E. HarmseFor someone who enjoys sewing by hand and machine and making use of scraps of material this is an ideal hobby. Reader's Digest is well known for its excellent products and this book lives up to that standard. The illustrations are colourful and help to make each step clear. It starts explaining the technique from scratch and gives all kinds of ideas, particularly helpful for those who, like me, lack imagination. With this book one needs no others to get going and making all kinds of colourful and creative useful articles.3 of 4 people found the following review helpful. I THINK IT IS better than a good book for beginners and for those that (know) everything about quilting or, so they thinkBy R. G. WilcherI am a beginner so this works for me. I do think everyone could glean a thought or two from it. Pain facts, good ideas and I think even I could make a quilt with just this book on hand. All

information you need about what you need and why to make a quilt to hang or to make a all size quilts (and changes to go from quilt to a soft easy all weather comforter). I Could not ask for more, except about adding a bit of bling, however it does not take more than a bit of imagination to do that . So experts keep it going ,but do take a look at this book simple as it may be to you, we all need to be reminded at times the basics. NOW BEGINERS ON YOUR MARK AND GO!

The guide teaches the techniques of crazy patchwork with how-to-lessons. Step-by-step photographs show exactly what to do at every stage- by hand or machine. The choice of fabrics, threads, and personal touches is completely up to the reader.

From School Library JournalAdult/High SchoolThis craft book is a model of helpful organizationclear directions supplemented by large and clarifying photographs, useful explanations of both techniques and supplies, and attractive projects. Providing instruction on how to sew patchwork, quilt, and embroider using hand techniques and sewing machines, the chapters are brief and focused on specific aspects of the work: preparing fabric, using such tools as scissors and needles, selecting and using batting, creating or copying paper patterns and templates, and making additional designs with embroidered stitches, ribbons and lace, and beadwork. A true beginner could move beyond inspiration to attempting a real projecta potholder is the smallest one detailedwhile those teens who have confidence in their sewing will be inspired to follow the directions for making handbags, photo-album covers, and maybe even a full-size quilt. Crafty teens, and those wondering if they might be able to turn their hands to creating something substantial, will be well served by this volume.Francisca Goldsmith, Berkeley Public Library, CA Copyright Reed Business Information, a division of Reed Elsevier Inc.
