Awesome seller !!! fast shipping THANK YOU !!!0 of 1 people found the following review helpful. book koobBy Bernardo San MartinWhy they repeat the images like a mirror in the opposite page? do they wanted to make a bigger book with a few designs?. Some of them are really nice but considering the doubling, the price should just half.

Be it ever so humble, a doorway with a touch of stained glass bears an air of distinction. This volume presents a panorama of elegant patterns, all specially designed for doorways, featuring flowers, grapevines, scrolls, wreaths, and other authentic motifs from nineteenth-century sources. Each design appears in several shapes, including rectangular, oval, circular, and oblong. These variations in shape make it easy for crafters to execute the same motif in a variety of formats, such as transoms, sidelights, and door inserts. Artists, artisans, and crafters seeking patterns with a nostalgic appeal will find that these lovely royalty-free stained glass designs lend themselves equally well to a host of other art and craft projects.
