Thomas Woods : War of the Nine Gods Issue#001 before purchasing it in order to gage whether or not it would be worth my time, and all praised War of the Nine Gods Issue#001:

0 of 0 people found the following review helpful. Excellent for those who love fantasy worksBy Holly GerardThis is the start of an amazing story with great characters and superb art. More beautifully crafted than your regular comic or graphic novel with a fresh plot and depth of emotion in the characters. If you love Warhammer, DD, J.R. Tolkien, or George R.R. Martin, then this is the book for you.

In a forsaken age, gods walked among men. From the heavens they brought forbidden knowledge and divine power.

They were known as the Nine Creator Gods - the Nine Headed Serpent, who shaped our world into their image. Their power seemed limitless - corrupting both flesh and earth. Multitudes worshiped them, others cursed them as abominations - but all feared them. Then came the great war, when the world was full of violence and death continually. The conflict shook the earth and seemed to have no end. But an end did come, and the Nine suddenly, mysteriously, were gone. They left all those who remained to their own fate, and for a time, all the living felt lost.
