The scrapbook pages are already put together and you just add photos and text. It covers first meeting, dating, courtship, memorable moments, engagement, family tree, wedding shower, guests, gifts wedding and honeymoon. Also a page for you to write letters to each other. It would be a great gift too! I had my husband fill out some thing for his perspective too. I have ALOT of different styles of scrapbooking and this is one of my favs. It's not fancy, but practical and cute. I look at this WAY more than I do my wedding photo album.

Now you can create the beautiful scrapbook memories for the ones you love without the significant time and money investment usually associated with this creative hobby. This beautiful hardcover journal looks like a real scrapbook and allows you to add your own photos and written memories.
