I loved that there were easy patterns as well as patterns to introduce new skills. Vickie Howell's easy-to-approach style gives knitters a chance to whip out some really cool designs. But without the construction drama! No one has time for complicated garment construction.0 of 0 people found the following review helpful. A must have book for years too come...By CustomerAmazingly fast delivery and got here with no damage, love this book and I have about 5 to do patterns right now to start.. I would recommend this book to anyone who knits from beginner to advanced knitter, this has something for anyone and you will be surprised by how easy every pattern is and instructions are amazingly written very well. Please put this on your list for you now and for others for Christmas, any new mother or grandmother like me this is a must have that you will go back to for years to come.1 of 1 people found the following review helpful. Great way to learn about garment construction!!!By

Tony C Kneisley This is a great book to learn about construction of garments without a whole lot of commitment. The garments are small therefore you can learn how the items are assembled without having to take the time to create a full sized adult garment.

From knitting personality Vickie Howell comes an adorable collection of modern baby knits featuring a fresh new take on garter stitch, everyone's go-to for easy projects. Taking this stitch into new creative territory, Howell designer, author, *Knit Simple* columnist, and host of PBS *Knitting Daily TV with Vickie Howell* has created 28 standout garments for boys and girls, including plenty of unisex items. These pieces wow with their inventiveness and modern appeal including stylish fringed moccasins, a boho hooded poncho, a feathered pom-pom toboggan hat, and a baby Cowichan sweater that grownup knitters will envy!
