**Mark Baker : Weekend Woodturning Projects: 25 Designs to Help Build Your Skills** before purchasing it in order to gage whether or not it would be worth my time, and all praised Weekend Woodturning Projects: 25 Designs to Help Build Your Skills:

5 of 5 people found the following review helpful. Very nice practice exercises.By Gary R. Casebeer Ma. Ed. Ma. Comm.this book is clear, has great illustrations and is very instructive. While most of the projects are not to complex, they do offer great practice opportunities and lead to more and more complex ideas being used as your proficiency increases.2 of 2 people found the following review helpful. Good projectsBy Judy E. JohnsonGreat projects for someone who is just beginning to turn or even someone who has been turning for a short time and needs extra ideas for projects.1 of 1 people found the following review helpful. Think about what a strain it is to read the fine print on

the label of some product you have ...By F. EarlyI cannot comment on the quality of the information because this book is printed in a text font that is annoyingly small. Think about what a strain it is to read the fine print on the label of some product you have purchased and you will have an idea of what I mean. This book will go in the next garage sale unread.

This title features 25 practical projects from world renowned woodturning expert. It will appeal to novice and intermediate turners. It includes all the knowledge needed to get started, along with step-by-step instructions and detailed drawings. Build your woodturning skills and confidence with this variety of projects that take between a couple of hours and a couple of days to complete. All of the 25 projects can be undertaken using a limited amount of tools and equipment. Making use of the six basic tools - spindle roughing gouge, spindle gouge, parting tool, bowl gouge, skew chisel and scrapers - the book will introduce a couple of carving tools and a boring tool and explain why and how to use them. Each project will have a list of tools and materials required, drawings with dimensions and a panel on the wood used. Sections on safety and seasoning wood are also included. Projects include: napkin rings, rolling pin, pastry press, meat tenderizer, wall clock, and bud vase

About the AuthorMark Baker is the editor of Woodturning magazine and the group editor of all GMC Publications woodworking magazines. His previous books are Woodturning Projects: A Workshop Guide to Shapes, Wood for Woodturners and Wood Turning: A Craftsman's Guide, all published by GMC Publications.
