Karin Hossack : Wirework: Using wire for beautiful home decorations (inspirations) before purchasing it in order to gage whether or not it would be worth my time, and all praised Wirework: Using wire for beautiful home decorations (inspirations):

0 of 0 people found the following review helpful. Great BookBy CustomerI felt this book was worth the money. It had a lot of inspiring and creative ideas for using wire. I didn't end up making any of the projects from the book, but did get a lot of ideas for other projects. I would reccomend this book to a friend.0 of 0 people found the following review helpful. Ok bookBy AnnalisaI am always searching for new and original projects to create... This book is not bad written, some of the projects may catch your interest, but It honestly didn't give me any motivation to start...0 of 0 people found the following review helpful. wirework inspirationsBy Barb EricksonThe book was intended to inspire. It has some beautiful ideas, but not what I personally want to do. I am working with one suggestion, but not succeeding. That is not the fault of the creator of the project, but I'm disappointed.the book itself was in perfect condition as received.

A combination of traditional crafts and exiting ideas from the world of interior design, with easy-to-achieve projects that allow you to bring personal touches to your home while perfecting your skills.

About the AuthorKarin Hossack gained degrees in photography and art when living in New York, and then went on to design, manufacture and sell jewellery to department stores and fashion designers alike. Since moving to England she has written and contributed to a wide variety of craft books and magazines as well as exhibiting her ethnic sculptures.
