Would not recommend. By bryce brisco Not a book for those seriously interested in Svend's work. The information is elementary, and the illustrations are worthless. Not written for educated potters or serious collectors. Would not recommend.

This book is based around the work of Svend Bayer a potter who has developed his skills through a passion in creating ceramic pots in a wood fired kiln. The pots created are individual and unique, as each pot is hand-crafted and the firing process creates the individualistic final piece of work, during the firing process.
