Purchased it since I had seen it on Abbey's blog, and the crafts illustrated have easy to follow directions. Wonderful crafts to share with either your children or in my case my granddaughter. I am very happy with the book and would recommend it to anyone wanting a book that will give you quality time with your children! Thanks Abbey!!! 3 of 3 people found the following review helpful. Delightful! By Ryan P. Higher quality crafts ranging from simple to more complex - all awesome! Cute illustrations and lovely photographs - It's fun and unusual to find a book with more challenging crafts for crafty adults or older children - Would definitely recommend :) 9 of 10 people found the following review helpful.

A warm book with a lot of fun crafts By Joe ZI highly recommend this book. The first craft I started working on is easy to follow and makes me feel a ton more artistic than I really am. I had heard of this book from my wife who enjoys Abbey's blog, and I am going to try to surprise her with both the book and a craft at the same time. I highly recommend Abbey's blog, and this book portrays her warmth. A great pickup both for yourself or as a unique gift for someone else that will show them you're thinking about them.

You Are Awesome is a collection of 21 clearly explained step-by-step craft ideas ranging from a cross-stitched screendoor to twig magnets. The projects are deceptively simple to make, but have a contemporary freshness that will appeal to seasoned crafters and novices alike. Beautiful photography, distinctive neon packaging and lovely illustration all complement Abbey Hendrickson's personable tone.
