My doodles are much improved! Seriously - tangling does focus your mind and the other books on Zentangles have always seemed like new and interesting patterns to try. I am very happy to own all of the previous books in this 'series'. As it happens - I am also a textile arts kind of gal and so I have tangles on cloth at times. I like this book well enough and it does offer information about how to stabilize your cloth in order to tangle on it more easily. There are some new tangle ideas incorporated for cloth. Am I pleased that I purchased this book? Yes! I like to keep all I can find on a subject that truly interests me. Do I think that this is "must buy"? Not necessarily. It's not the best of the series IMHO but it is a good addition for those of us who are both tangle and cloth fascinated. 0 of 0 people found the following review helpful. How to for creating Zentangle art projects By Karen Thayer A fun book to have for getting into Zentangle on fabric. Easy to follow instructions and ideas for designs to make pieces with beautiful Zentangle art. Some zentangles work better than other when sewing designs on fabric and this book is a great reference for tangles that work. The book offers directions and pictures to show how to create Zentangle pieces you can use. 5 of 5 people found the following review helpful. "Zenning" - beginner to advanced By sandytoes A WONDERFUL BOOK FILLED WITH DESIGNS and how to apply them for quilting fabric designs. It's filled to the brim with directions for designs, wonderful photos

and IDEAS!! It matters not if you are a beginner or advanced, there's something for us all. The instructions are clear, concise and simple to apply. "Zentangle Fabric Arts Quilting Embroidery" shows you how to use your designs for free-motion quilting among other projects. The step-by-step instructions are simple to apply and there are tips to make it easier, with photos showing what you are working to achieve. So, if you want to become well versed on "zenning" and want wonderful, free-flowing designs that will make people do a double take and ask "How'd you do that?!!" this is the book for you!
